EDUCATION

Horizon Campus

BIT(Hons) in Networking and mobile computing
Year of Graduation: 2025

MALITHTHA CENTRAL COLLEGE

Passed G.C.E. Advanced Level
Examination 2018 / 2019

WORK EXPERIENCE

FULL STACK DEVELOPER - INTERN

Axcerptro Private Limited

July 25, 2024

- Worked with the development team to build and maintain web applications using Laravel and modern tools. Helped with both front-end and back-end tasks, including API integration.
- Wrote clean, efficient code and took part in testing, debugging, and code reviews.
- Collaborated with designers to create responsive user interfaces and optimized apps for speed and performance. Stayed updated on new tech and trends in full-stack development.

FULL STACK DEVELOPER - ASSOCIATE

Sky Smart Technology Private Limited

January to July , 2025

- Managed and maintained Linux-based servers secure hosting environments.
- Designed, developed and consumed RESTful APIs to support frontend and third-party integrations.
- Built dynamic, responsive interfaces in React and implemented robust backend services in Laravel.
- Integrated Google Cloud Storage for efficient handling of media uploads and retrieval, automating signed-URL generation.
- Established Git workflows (feature branches, pull requests, code reviews) to maintain code quality and streamline team collaboration.
- Architected and optimized MySQL schemas, wrote complex queries and performed routine database maintenance.
- Led the Production Tracking System project: wrote core modules, deployed updates to production, and mentored two interns on best practices.
- Installed and commissioned IoT Andon devices at MAS Silueta, troubleshooting connectivity and edge-device software.
- Overhauled Sky Smart Technology's office network: designed, configured and deployed a new, high-availability network infrastructure.

RESEARCH PUBLICATIONS

Presented a paper titled, "Dengue Fever Prediction using Machine Learning," at the Information Technology Symposium, organized by Horizon Campus on [May.2024].
https://www.researchgate.net/publication/380875366_Dengue_Fever_Prediction_using_Machine_Learning

CERTIFICATIONS

Introduction to IoT

Institution: CISCO
2022- University of Moratuwa

Enterprise Networking, Security and Automation

Institution: CISCO
2023 - University of Moratuwa

Switching, Routing and Wireless Essentials

Institution: CISCO
2023 - University of Moratuwa

SKILL

- Laravel
- PHP
- React
- HTML
- CSS
- tailWindCSS
- Web Design
- JavaScript
- MySQL
- C
- Python
- packet Tracer

LANGUAGE

- English
- Sinhala

PROJECTS

- **Ai Geeks Web App - Freelancer Project - FullStack Develop**
Using: Laravel, React, tailWindCss, MySQL
- **Dengue Fever Prediction using Machine Learning**
Group
Using Python
- **CCNA Packet Tracer Projects using VLAN, Telnet, Router, Switch Configuration**
Individual
Using: Packet Tracer
- **Sustainability Web App - Back-End Develop**
Individual
Using : Laravel, MySQL, Linux Server Handling

ACADEMIC PROJECTS

IoT-Based Environmental Control for Rose Flower Tunnel - November 2024

- Built an IoT system for a rose tunnel to monitor and control temperature, humidity, soil moisture, light, and gas levels using ESP32 .
- Developed a web-based dashboard using Laravel and MySQL for users to remotely monitor and control environmental conditions.
- Achieved real-time data logging and visualization on ThingSpeak, providing historical insights for trend analysis.
